### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the closest prior art of record is Role. (US 6,284,535 B1, "Role"). Role discloses an almost identical protein to the instant SEQ ID NO:4. However, SEQ ID NO:4 in the Role patent differs at amino acid residue 375 as compared to the instant SEQ ID NO:4. Instant SEQ ID NO:4 has an alanine at position 375 while the Role patent discloses arginine at position 375. The Role patent does not anticipate or render obvious the amino acid substitution present in instant SEQ ID NO:4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
